

# You're Invited!

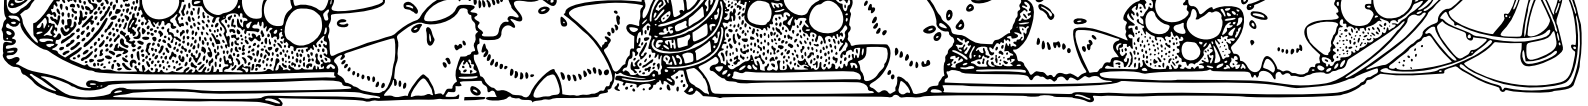

**Welcome to Your Family's Journey  
Toward a Future in Medicine**

Hi, I'm **Dr. Robin**—physician, science teacher, and creator of **MedPath**.

If you have a child who's curious about the human body, loves helping others, or is always asking "how things work," you're in the right place.

## Wondering what to do next?

Maybe your child talks about becoming a doctor, nurse, vet, or dentist—or maybe you just want to keep that door open for them. Either way, **you're not alone**. And you don't need to figure it all out on your own.

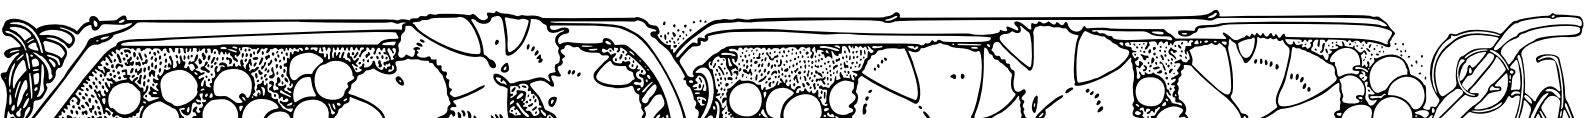

That's why I created **MedPath**—a science-rich, parent-guided pathway designed to:

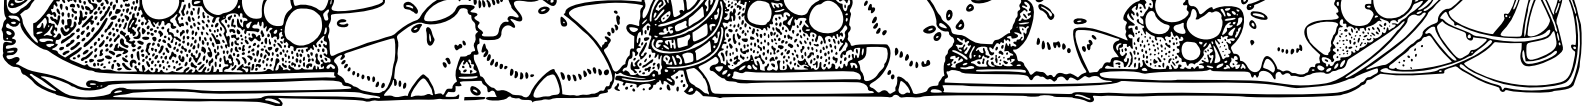

- Support you with tools and structure
- Prepare your child with real knowledge and skills used in medical careers.

## What You're Getting in Your Kick-Start Download

- This Invitation Letter
- MiniQuest for Parents Map
- MiniQuest for Parents Guidebook
- Packing List (so you'll know you have everything you need).

## What Happens Next

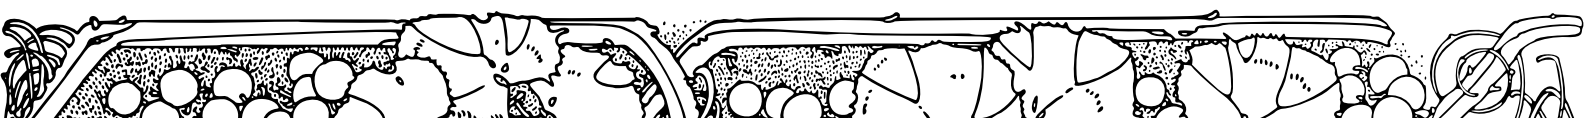

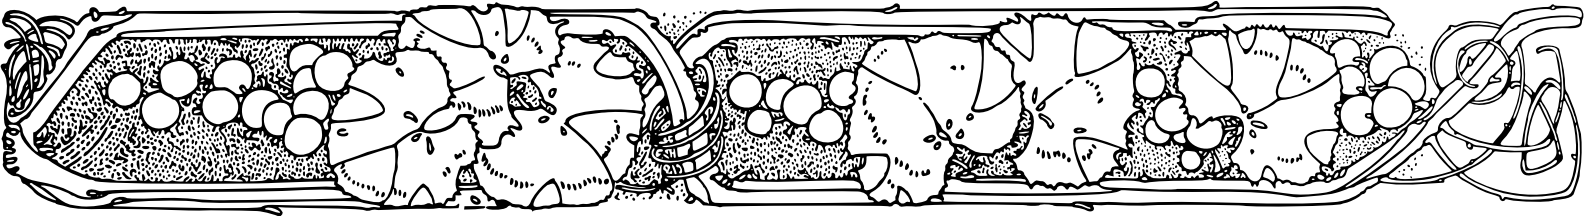

- You'll receive 27 short, friendly **MiniQuest emails**—each with a doable action step to help you move forward.
- The **Guidebook** lets you know which email to look for next. We send your downloadable tools in these emails.
- As you complete each step, mark it on your **MiniQuest Map** to track your progress and feel confident you're heading in the right direction.

## Start Exploring Right Away

- You get instant access to sample lessons from four different MedPath levels—as soon as you download your bundle.
- These real lessons give you a firsthand look at what MedPath is like, so your child can dive in today.
- Not sure where to start? Don't worry—we'll follow up with simple guidance to help you pick the right sample for your child's age, interest, and confidence level.

You're not just downloading materials—you're stepping onto **a path that could shape your child's future**. And I'm delighted to be your guide.

You've got this. I'm so excited to see where this journey takes you and your child!

See you inside,

*Dr. Robin*
