COURSE SYLLABUS

Give Your Child Their First Step
Toward Medicine

30 Video Lessons

Grades K–3

CLINICAL FROM DAY ONE

WHAT STUDENTS GET

- ☐ **Lesson Videos** 30 short video lessons covering all major body systems.
- ☐ **Anatomy Coloring Book** Included with enrollment. PDF printable provided; printed copy mailed free with annual or lifetime plan. Also available on Amazon.
- ☐ **Map & Guidebook** Optional fantasy-themed guidebook to track progress and milestones through the course journey.
- ☐ **Certificate** Available at the end of the book for when you complete the level
- ☐ **Career Exploration** Custom career coloring pages, each featuring a Would You Rather question to spark real thinking about the healthcare world.

| Who It's For

This course is the starting point for **any child who is curious about medicine and the human body.**

It's designed for younger learners — **typically grades K–3** — but the right starting point is wherever your child is, not how old they are. If they've never studied anatomy before, this is where they begin.

A GREAT FIT FOR

Curious Children (Grades K–3)

Kids who love to color and learn best through visual, hands-on activities, ready for their first real introduction to anatomy. Every lesson pairs Dr. Robin's guided teaching with the Anatomy Coloring Book.

Kids Who Already Say "I Want to Be a Doctor" (or Nurse, or Vet)

Foundations exposes them to dozens of career options through custom career coloring pages built into every body system, so their dream gets real information.

Families new to MedPath

Who want to start at the beginning, regardless of the child's age. If anatomy is new territory and attention spans are short, this is where you start.

Most younger students need to work through the material two to three times before they're ready to move up. This lets them start to understand how the different systems work together

Course Content

Each body system is explored through anatomy video lessons taught by Dr. Robin, paired with the Anatomy Coloring Book. Career coloring pages are included for each system.

LEARNING OBJECTIVES

- ✓ Name and label the major structures of each body system
- ✓ Describe how each body system's anatomy relates to its function
- ✓ Identify multiple healthcare careers connected to each body system, not just doctor, nurse, and vet
- ✓ Recall the anatomical vocabulary that carries through every future MedPath level

Welcome to Dr. Robin's School

#	Lesson
---	--------

1.1	Welcome from Dr. Robin and Get Your Map and Guidebook!
-----	--

1.2	MedPath Careers
-----	-----------------

1.3	Begin Your Journey and Get Your Coloring Book!
-----	--

Respiratory System

#	Lesson	Length
---	--------	--------

2.1	Lungs in Situ	16:23 min
-----	---------------	-----------

2.2	Bronchi and Alveoli	11:47 min
-----	---------------------	-----------

2.3	How We Make Speech	17:13 min
-----	--------------------	-----------

Cardiovascular System

#	Lesson	Length
3.1	Heart Exterior	19:14 min
3.2	Cardiac Cycle	11:56 min
3.3	Heart Interior	12:52 min
3.4	Circulatory System	21:57 min

Urinary System

#	Lesson	Length
4.1	Kidneys and Bladder	11:10 min
4.2	Kidney and Nephron	14:23 min

Gastrointestinal System

#	Lesson	Length
5.1	Inside the Mouth	16:55 min

#	Lesson	Length
5.2	Digestive System	20:09 min
5.3	Small Intestine	14:01 min
5.4	Biliary Tree	15:17 min

Lymphatic

#	Lesson	Length
6.1	Lymphatic System	18:48 min

Integumentary

#	Lesson	Length
7.1	Skin	11:39 min

Musculoskeletal System

#	Lesson	Length
8.1	Bones and Joints	23:28 min

#	Lesson	Length
8.2	Comparative Anatomy of the Limbs: Bones	20:43 min
8.3	Comparative Anatomy of the Limbs: Muscles	13:39 min
8.4	Axial Skeleton	15:34 min

Nervous System

#	Lesson	Length
9.1	Autonomic Nervous System	20:17 min
9.2	Spine and Spinal Cord	12:16 min
9.3	Dermatomes	15:03 min
9.4	Nerve Cells	10:08 min
9.5	Brain	10:53 min
9.6	Homunculus	11:40 min
9.7	Eye	8:30 min

#	Lesson	Length
9.8	Ear	11:47 min
9.9	Where Senses Go in the Brain	8:05 min

Wrapping Up

#	Lesson
10.1	Anatomy: Systems of the Human Body
10.2	Anatomy: The Human Cell

Ready for the next step?

MedPath Level 1: Essentials of Human Health

Physiology is added to the anatomy foundation, careers come into focus through Career Snapshots and MedPath Insights, and students begin connecting what the body looks like to what it actually does — and what can go wrong.
